## Monthly Value: Initiative

Craig Kielburger believes that, WE can change the world. Over 20 years ago, he set out on a bold mission: to work with developing communities to free children and their families from poverty and exploitation. Their vision expanded to include empowering youth at home, connecting them with global issues and social causes, and partnering with schools to inspire young change-makers from within the classroom. And with the launch of ME to WE, they created an innovative social enterprise that provides products that make an impact, empowering people to change the world with their everyday consumer choices.
